

Please do not let LPFM have priority over FM translator service in our area. We currently listen to KLOVE at 88.7, 104.0, and 92.9, and this is a valuable service to us. It allows us to listen to the kind of programming we like, without all of the paid advertisements that commercial stations have, and it is clean and not offensive, unlike many commercial stations. As a repeater station with numerous locations KLOVE can be heard as I travel around, while a LPFM would not. Please keep FM repeater stations like KLOVE operational and give them priority over LPFM so we can have clean, uplifting programming. Thank you.
